Subject: FW: OUST review of PR regs

Wilmarie,

Attached are the comments from EPA – they include comments from Dennis McChesney and from our folks in OUST.

Unfortunately, they believe that more work is needed on these. One of the main issues that made this review difficult is that a better translation from Spanish to English is needed and in the next iteration, perhaps a professional service should be sought before being submitted.

I think it would be best to schedule a conference call with appropriate EPA staff and your own to go over these comments. Once you have reviewed them and are ready to discuss – let us know and I will have it scheduled.
